

## CORE BITS SPECIAL MATERIALS

### SDVT

The core bit sanitation for drilling special materials

#### DESCRIPTION AND BENEFITS

- Usable length of the tube: 300 mm
- Specially designed for thermal core drills

#### MATERIALS

Wood, Cast iron, PVC, Ribbed PRV, Corrugated PVC pipe

Serrated diamond segments, height 11 mm

Laser welded segments

| Reference  | Ø   | Connection | Segment |               | Machine                                                                               | Dry or wet work |
|------------|-----|------------|---------|---------------|---------------------------------------------------------------------------------------|-----------------|
|            |     |            | Number  | l x w x h     |                                                                                       |                 |
| SDVT102N3T | 102 | 3-holes    | 8       | 24 x 3,5 x 11 |  | Dry             |
| SDVT112N3T | 112 | 3-holes    | 9       | 24 x 3,5 x 11 |  | Dry             |
| SDVT151N3T | 151 | 3-holes    | 11      | 24 x 3,5 x 11 |  | Dry             |
