

BLADES CAST IRON, PVC, METAL

SPI

Essential for cutting small diameter steel

EN 13236

DESCRIPTION AND BENEFITS

- Low thickness: better penetration, faster cutting, even in hard materials such as steel
- Super resistant: no more blade breakage problems
- + for the environment: reduces sparks and fragments, does not emit odours

MATERIALS

Steel, Cast iron, Metal post

EXPERT ADVICE

SPI blades are intended to replace common abrasives for cutting teal, heet, pipes. Thanks to their «BSL» Brazed Single Layer technology the diamonds are brazed onto the Sheet in a single layer (and not randomly) = uniform wear, service life increased by an average of 30 times compared to an abrasive blade.

Reference	Ø	Bore	Segment		Machine	Dry or wet work
			Number	l x w x h		
SPI125/22	125	22,23	10	36 x 1,3 x 1,5		Dry
SPI230/22	230	22,23	16	42 x 1,8 x 1,5		Dry
