

MIXING MACHINES

USAGE

Quick and homogeneous mixing of very varied materials: tiling glue, ready-to-use mortar, plaster, sleeve

DELIVERY CONTENT

Cardboard box including :

- 1 mixing station
- 1 container
- 1 Special stirring rod M31460

JOBS

Mason, Plasterer, Floor renovator

Mixing station AUTOMIX90

High-capacity mobile

RÉFÉRENCE	AUTOMIX90
CARACTÉRISTIQUES TECHNIQUES	
Engine	Electric 230 V - 1500
Diameter	460 mm
Connection	M20
Capacity	80 kg
Rotation speed	50 rpm
Net weight	35 kg
Dimensions l x w x h	800 x 900 x 650 mm

80 kg

1 speed

460 mm

MADE IN EUROPE

- Integrated transport chassis with drawbar and castors – mobile use of the mixing station
- Anti-twist protection for the container, high stability

Easily transportable thanks to the transport trolley

Tilttable device for quick filling

Lightweight, space-saving station. Disassembly without tools, easy storage and transport

Powerful universal motor, robust, high torque. Dust-protected switch

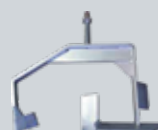

Protective grid

Circuit breaker. Disconnection in the event of unintentional opening: user protection
